

47 students from Years 9, 10 and 11 took part in the Intermediate UKMT Maths Challenge on Thursday. They really embraced this year's challenge; many in Year 11 have taken part for the last 3 years are looking to improve on last years' certificate.

The UKMT Individual Maths Challenges are lively, intriguing multiple choice question papers, which are designed to stimulate interest in Maths in large numbers of pupils. The three levels cover the secondary school range 11-18 and together they attract over 600,000 entries from over 4,000 schools and colleges.
