

Individual letters have been posted home to parents of students who receive exams access.

If your child receives exams access, this means they may have extra time allotted to them, a reader, a scribe or more than one of the above. Access arrangements support students in exams in the way they will be supported in their normal way of working in the classroom.

The letter will also detail arrangements that will be part of their normal way of working.

If any parents who receive a letter would like to meet to discuss their child's access arrangements and the support that has been put into place, please do not hesitate to contact the SEND office on 01983 409125.
